

Super Sensitive™ Detection

BioGenex is pleased to introduce new and improved poly-HRP Super Sensitive™ detection system with unmatched sensitivity, clean intense stain with the shortest assay protocol.

- Fast 40 min turn-around time
- Universal system for rabbit and mouse antibodies
- Enable higher dilution of antibodies, reduces cost
- Highly specific stains for weakly expressed nuclear, cytoplasmic membrane antigens
- Ultra-sensitive with superb staining quality

BioGenex
Accelerating the pace of precision medicine
